Claim 2, line 2, remove "general" following "fault are coded in said."

Allowable Subject Matter

2. Claims 1-16 are allowed.

The following is an examiner's statement of reasons for allowance:

The primary reason for allowance of claim 1-16 is the inclusion of an evaluator for evaluating any fault message broadcasted across a fieldbus and a switching device which autonomously changes at least one safety-critical process to a safe state when a fault message broadcasted is evaluated as being relevant, in a signal safe unit of an apparatus for controlling safety critical processes, as recited in all of the claims.
